SUMMARY

I'm a Computer Science student currently finishing my degree, with a growing interest in data analysis. I've worked on several school projects focused on front-end and UI/UX, but along the way, I started exploring how data can improve decisions and user experience. Right now, I'm building my skills in SQL, Excel, and Power BI, and I'm looking for an internship where I can apply what I've learned while continuing to grow in data analytics.

EDUCATION

Bachelor of Science in Computer Science

August 2023 - Present

Batangas State University - Alangilan

TECHNICAL SKILLS

- **Data & Analytics:** SQL (basic querying), Excel (data cleaning, formulas), Power BI (learning dashboards)
- **Development:** Python, HTML, CSS, JavaScript, React, Laravel, Flutter
- **UI/UX & Tools:** Figma, Git

PROJECTS

Kalinga – Healthcare Web Application

February 2026 - May 2026

- Built a React-based web app for managing health records, providers, and appointments
- Designed UI/UX to improve accessibility and usability
- Developed reusable components for scalability
- Collaborated with team members for integration

SpartaGo - Gym Appointment System

October 2025 - December 2025

- Developed a mobile booking system using Flutter
- Designed user-friendly scheduling interfaces
- Improved booking flow and user experience
- Worked with team to deliver functional prototype

EXPERIENCE

Data Specialist

July 2023 - December 2025

Woflow Inc.

- Cleaned and organized data files related to grocery, home, and retail products
- Ensured data accuracy, consistency, and completeness across datasets
- Maintained and updated product information to support a reliable database
- Assisted in preparing structured data for analysis and business use

ADDITIONAL INFORMATION

- Currently learning Power BI and data visualization
- Interested in using data to improve decisions and user experience
- Team player and open to feedback
